

I Count Card Scheme

The "I Count" concept is designed to give a positive message and experience to children with disabilities and adults with learning disabilities who are recorded on the registers and databases run by ICount Registers @ Sutton.

The card can be used as proof of an individual's disability and enables easy access to available concessions and fast-tracking.

The card has been enthusiastically received and feedback has been very positive.

"I Count" is the trademark of Register Services. The "I Count" card is distributed to those registered on all the databases managed by Register Services. Production of the plastic 'I Count' card was funded by 'Awards for All' (The National Lottery)
