

If only people knew about learning disability.....

Most people don't know much about learning disability and how it affects people's lives. There are 1.5 million people with a learning disability in the UK. They do not have the same control over their own lives as the rest of society.

That's why Mencap is here

Mencap works with people with a learning disability to change laws and services, challenge prejudice and directly support thousands of people to live their lives as they choose.

Every person with a learning disability, no matter how severe their disability, can make choices about how they want to live. They just need the right support.
That's why Mencap is here.

Mencap wants people with a learning disability to have the same rights as everyone else.

Mencap is the voice of learning disability
